

JABUTICABA POWDERS

Brazil's Antioxidant-Rich Superfruit

Jabuticaba (jah-boo-tih-KAH-bah) is a deep-purple Brazilian superfruit known for its rich natural color and high polyphenol content—especially in the peel, where its antioxidant power is most concentrated. Often compared to a grape or dark berry, it offers a sweet, slightly tart flavor and a strong nutritional profile driven by anthocyanins and other beneficial plant compounds. Widely used in juices, powders, and extracts, jabuticaba brings vibrant natural coloration, functional value, and a compelling premium “superfruit” story to wellness, beverage, and nutrition applications. From responsible sourcing to finished ingredient formats, jabuticaba represents the next generation of clean-label, naturally derived superfruits for modern product innovation.

Product	Scientific Name
Jabuticaba 4:1 (whole fruit extract)	<i>Plinia cauliflora</i>
Jabuticaba Extract Plus 4:1 (extra peel and seed powder)	<i>Plinia cauliflora</i>
Jabuticaba Polyphen+ (peel and skin powder only)	<i>Plinia cauliflora</i>

PACKAGING: Spray-dried: food-grade polyliner 20-25kg/fiber drum

ACEROLA POWDERS

...a great source of
natural Vitamin C

Acerola, or Barbados Cherries is native to South America, Southern Mexico and Central America and is known for its incredibly high content of vitamin C, A, B1, B2, and B3, as well as carotenoids and bioflavonoids, which provide important nutritive value and have antioxidant uses.

Besides making sure we source the best raw-material available, our state-of-the-art manufacturing process consistently delivers high quality acerola powders, what set us apart to higher standards, when it comes to creating and conceiving and products.

PACKAGING: Spray-dried: food-grade polyliner 20-25kg/fiber drum

Freeze-dried: Aluminum bag 10/20kg/box

AÇAÍ POWDERS

Boost your ingredients
with antioxidants!

The Açáí Palm is native to Northern Brazil and is commonly known as Açáí berry. It becomes famous worldwide for being extremely rich in polyphenols and antioxidants. The berry is a small, round, black-purple drupe about 0.5 inch (10 mm) in diameter, similar in appearance to a blueberry, but only its skin, exocarp of about 1-2 mm thickness is useful as fruit pulp. The seed makes up over 93% of the entire Açáí berry.

Besides making sure we source the best raw material available, our state-of-the-art manufacturing process consistently delivers high quality açáí berry powders, what sets us apart to higher standards, when it comes to creating and conceiving and products.

Product	Scientific Name
Açáí Berry Spray-dried Powder ADF02 (8:1 FP)	<i>Euterpe oleracea & precatoria</i>
Açáí Berry Spray-dried Powder ADF04 (16:1 FP)	<i>Euterpe oleracea & precatoria</i>
Açáí Spray-dried Powder 4-6% Polyphenols	<i>Euterpe oleracea & precatoria</i>
Açáí Freeze-dried Powder (pure)	<i>Euterpe oleracea & precatoria</i>
Organic Açáí Products	Scientific Name
Organic Açáí Spray-dried Powder ADF02 (8:1 FP)	<i>Euterpe oleracea & precatoria</i>
Organic Açáí Spray-dried Powder ADF04 (16:1 FP)	<i>Euterpe oleracea & precatoria</i>
Organic Açáí Spray-dried Powder 4-6% Polyphenols	<i>Euterpe oleracea & precatoria</i>

CAMU-CAMU POWDERS

The highest natural source of Vit. C

Camu camu (*Myrciaria dubia*), a small, bushy tree native to the Amazon rainforest in Peru and Brazil, produces a cherry-like fruit renowned for its exceptionally high vitamin C content. As the fruit ripens, its vitamin C levels gradually decrease while its flavor intensifies, offering a unique balance between nutritional potency and taste. This makes camu camu a prized ingredient for those seeking natural, nutrient-rich supplements, as well as a flavorful addition to health-conscious diets.

Our experience and infrastructure are crucial assurance that your source processes the best raw material produced in our state-of-the-art manufacturing processors to consistently delivers high-quality ingredients.

APPLICATIONS

Food supplements, Food products, Dairy Drinks, Non-Alcoholic Drinks, Sports and Energy Drinks,

GUARANÁ EXTRACTS

Caffeine from the
Amazon at its best

ABRAZIL
INGREDIENTS FOR HEALTH

Guaraná, native to the Amazon basin and particularly abundant in Brazil, is a powerful ingredient renowned for its seeds, which, despite being similar in size to coffee beans, boast nearly twice the caffeine content (2-4.5% in guaraná seeds compared to 1-2% in coffee). This natural stimulant delivers not only a strong energy boost but also a distinctive blend of phytochemicals and flavors, making it exceptionally appealing.

As demand for guaraná continues to surge globally, it has become a highly coveted commodity. Its potent energy, rich flavor, and wide-ranging health benefits solidify guaraná as a top choice for both consumers and manufacturers in the competitive health and wellness market.

Product	Scientific Name
Guaraná 2% Caffeine SD Powder (Natural)	<i>Paullinia cupana</i>
Guaraná 3-5% Caffeine SD Powder (Natural)	<i>Paullinia cupana</i>

Agaricus brasiliensis

Rich in beta-glucans

Our ABM mushroom (*Agaricus brasiliensis* ex. *blazei*), native to Brazil, is renowned for its powerful health-enhancing properties. Rich in beta-glucans, natural polysaccharides known for boosting immune function, it helps strengthen the immune system and may aid in inhibiting tumor growth. With proven anti-inflammatory effects, it also supports the management of conditions like arthritis, while promoting healthy blood sugar levels and liver function. Widely used in both traditional medicine and modern supplements, ABM is celebrated for its diverse therapeutic potential, making it an ideal choice for overall wellness.

Product	Scientific Name
Agaricus brasiliensis Dehydrated Whole	<i>Agaricus brasiliensis</i> , syn. <i>Blazei</i>
Agaricus brasiliensis Dehydrated Powder	<i>Agaricus brasiliensis</i> , syn. <i>Blazei</i>
Agaricus brasiliensis Extract Powder	<i>Agaricus brasiliensis</i> , syn. <i>Blazei</i>

PACKAGING Extract: food-grade polyliner 20-25kg/fiber drum

Dehydrated: food-grade polyliner 13kg/box

Potential Benefits

- Immune System Support
- Anti-Cancer Properties
- Anti-Inflammatory Effects
- Antioxidant Activity
- Metabolic Health
- Gut Health

APPLICATIONS

- Capsules/Supplements
- Gummies
- Functional Food & Beverages
